

**YAMAGUCHI
UNIVERSITY**

**City of
Hope™**

YU-COH

Biomedical Research Partnership “ Exchange Expansions 2024 ”

April 24th – 29th (JST), 2024, Symposium & Research Colloquium

**Date : 24th – 25th April : Symposium & Research Colloquium
(Conference) (in Yoshida Campus)**

**26th – 27th April : Research Colloquium (Conference)
(in Kogushi Campus)**

**28th April~ : Research Colloquium (Conference)
(Yamaguchi Academic Exchange Tourism in Shimonoseki)**

Main Venue : Yoshida and Kogushi Campus, Yamaguchi University

Contact TEL : +81-0836-22-2202

e-mail : nanomed@yamaguchi-u.ac.jp

**Organizer: Department of Organ Anatomy & NANOMEDICINE,
Yamaguchi University Graduate School of Medicine
International Nano-theranostics Center
(Core Clusters for Research Initiatives of Yamaguchi University)**

**Supported by The Priority Universities for Cooperation Projects
Research Institute for Cell Design Medical Science**

YU-COH

Biomedical Research Partnership

“Exchange Expansions 2024”

Symposium

April 24th (JST), 2024, Online available

Opening Remarks

Yukio Tanizawa, M.D. Ph.D.

President, Yamaguchi University

Ken Kaminishi, Ph.D.

Vice President for Academic Research, Yamaguchi University

Introduction to Yamaguchi University Research

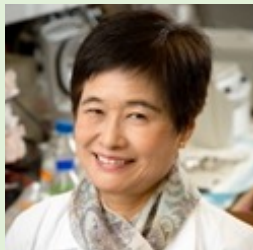

Invited Speakers

David Horne, Ph.D.

Vice Provost and Deputy Director, Beckman Research Institute of City of Hope,
Dr. & Mrs. Allen Y. Chao Chair in Developmental Cancer Therapeutics
Professor, Department of Molecular Medicine, Beckman Research Institute of City of Hope

Translational Research at City of Hope

Yoko Fujita-Yamaguchi, Ph.D.

Professor Emeritus, Department of Diabetes Complications & Metabolism, Arthur Riggs Diabetes and
Metabolism Research Institute, Beckman Research Institute of City of Hope

***New Prospects of the Research
which Originated from My Graduate Study***

Markus Kalkum, Ph.D.

Professor, Department of Immunology & Theranostics, Arthur Riggs Diabetes & Metabolism Research
Institute, Beckman Research Institute of City of Hope

***Immunomodulatory Metabolites of the
Microbiome and the Host: A Mass Spectrometric
Tale from Challenge to Discovery***

Closing Remarks

Tomoko Ishii, Ph.D.

Vice President for International Cooperation, Yamaguchi University

General Chairperson: Michihiro Nakamura, M.D. Ph.D

Organizer: Department of Organ Anatomy & NANOMEDICINE, Yamaguchi University Graduate School of Medicine.
International Nano-theranostics Center (Core Clusters for Research Initiatives of Yamaguchi University)

Supported by The Priority Universities for Cooperation Projects, Research Institute for Cell Design Medical Science
