

**11th YU-RCTMR Symposium and 6th Seminar of Priority Universities for Cooperation
International Symposium "Bioactive Molecules from Microorganisms"**

Date: Friday, November 15, 2019

Venue: Media Center Lecture Hall, Yamaguchi University

Time	Program	Chairperson
14:00	Opening Remarks Dr. MD. Masaaki Oka (President, Yamaguchi University)	
14:15-14:45	Analysis of <i>Francisella</i> effector interacting with centrosome Dr. Takashi Shimizu (Joint Faculty of Veterinary Medicine, Yamaguchi University)	Dr. Kazunori Sasaki (Yamaguchi University)
14:45-15:15	Assembly of a fungal macrocyclic polylactone is catalyzed by two iterative polyketide synthases Dr. Pakorn Wattana-Amorn (Faculty of Science, Kasetsart University)	Dr. Toshiharu Yakushi (Yamaguchi University)
15:15-15:45	Coffee break (FAVO)	
15:45-16:15	Genosensor: when nucleic acid assay was used as a biomolecular tracer in microbial biotechnology Dr. Piyasak Chaumpluek (Faculty of Science, Chulalongkorn University)	Dr. Hisashi Hoshida (Yamaguchi University)
16:15-16:45	Chemotaxis involved in plant infection in <i>Ralstonia solanacearum</i> and control of plant infection by intervening chemotaxis Dr. Jun-ichi Kato (Graduate School of Integrated Sciences for Life, Hiroshima University)	Dr. Gunjana Theeragool (Kasetsart University)
16:45	Closing Remarks Dr. Kenji Hori (Vice-President (Academic Research), Yamaguchi University)
